DIPLOMA IN ISLAMIC DIGITAL BANKING

OFFERED IN COLLABORATION WITH

SHAPING THE FUTURE OF SHARIAH-COMPLIANT DIGITAL FINANCE

As artificial intelligence, fintech, open banking, blockchain, and digital-first business models transform the financial sector, Islamic banking needs professionals who can connect innovation with Shariah principles.

The Diploma in Islamic Digital Banking equips participants with future-ready knowledge to understand, design, and lead secure, customer-centric, and Shariah-compliant digital financial solutions. Combining Islamic finance, emerging technologies, digital product development, regulation, and strategy, the programme prepares professionals to thrive in the rapidly evolving digital banking ecosystem.

PROGRAM MODULES

- The digital banking revolution & ecosystem
- Shariah foundations in the digital age
- Core technology & infrastructure
- Digital product design & experience—Islamic focus
- Digital risk, regulation & compliance Strategy, leadership & the future

WHO SHOULD ATTEND?

- Islamic and conventional banking professionals
- Fintech and digital banking professionals
- Shariah scholars, advisors, auditors, and compliance professionals
- Product, technology, cybersecurity, data, and risk professionals
- Regulators and policymakers
- Entrepreneurs and professionals aspiring to enter Islamic digital finance

DIPLOMA IN ISLAMIC DIGITAL BANKING

OFFERED IN COLLABORATION WITH

LEARNING OUTCOMES

Participants will be able to:

- Evaluate the digital banking revolution, fintech ecosystem, and emerging digital-first business models.
- Apply Shariah principles and governance requirements within modern digital financial environments.
- Assess the role of AI, blockchain, cloud computing, APIs, cybersecurity, and payments infrastructure in digital banking.
- Design customer-centric and Shariah-compliant digital banking products and experiences.
- Manage digital risk, regulation, and compliance while developing future-ready strategies for Islamic digital banking.
